WE'RE SLEEPER MEDIA

Launched in 1999, Sleeper Media is the leading multimedia company serving the hospitality design industry.

We make it our mission to craft content and commercial solutions that connect communities creating exceptional hospitality experiences around the world.

Our print portfolio comprises three beautifully presented magazines focusing on the design and development of hospitality spaces, with exclusive insight from the creators and collaborators responsible for bringing concepts to life.

Each magazine is supported by a dedicated website, recently redesigned to reflect the ethos and aesthetic of its affiliated print title. Our online platforms feature news, interviews and in-depth trend reports as well as access to digital issues.

We also organise global events, ranging from intimate seminars and suppers to effective networking forums and glittering awards ceremonies. All are expertly curated to engage our community.

In print, online or face-to-face, everything we do is driven by our passion for the industry we serve.

ABOUT STARBOARD MAGAZINE

Established in 2018, Starboard is the leading magazine for transport design and development. Published biannually, it covers new concepts at sea, on land and in the air, with a focus on those committed to creating experiential hospitality.

INSIDE STARBOARD

The leading magazine for style in travel – at sea, on land or in the air

Starboard was born out of an increasingly close relationship between hospitality and transportation, and the idea that travel experiences extend beyond the realms of a traditional hotel.

More and more, hotel groups are strengthening their brands through investment in non-traditional hospitality models, partnering with private transportation operators or developing their own concepts to replicate the brand experience at sea, on land or in the air.

The sectors are converging in other ways too. Specialist hotel designers are being asked to bring their expertise to the world of luxury travel, particularly cruise lines, resulting in stylish vessels that are more in line with boutique hotels than a mode of transport. Luxurious staterooms, world-class spas, and multiple bars and restaurants, many helmed by star chefs, are just some of the facilities on offer.

Starboard examines the design, development and operation of these spaces; tells the stories behind the concepts; details the fit-out across the entire supply chain, from floorcoverings, soft furnishings and furniture to lighting, tableware and barware; and considers ways in which all of the above contribute to the overall guest experience.
